

DATA SHEET

VARIOUS EQUIPMENT

Ref : 1636

Type : VARIOUS EQUIPMENT
Brand : SCHNELVERASCHER
Model : SVD 95 P
Serial N° : 2240315

Quantity : 1
Overall dimensions : 0.45 x 0.31 x 0.18 M
Weight : 10 Kg

- RAPID INCINERATOR

Description:

2500W 220V High Speed Incinerator SVD 95P

The service temperature of around 950°C is reached within minutes. The upper level with 8 openings of 34 mm Ø each allows porcelain crucibles up to 50 mm Ø for drying and preheating.

Burn even liquid substances.

Free access to oxygen speeds up incineration.

Due to the inclined position of the crucibles in the incineration bed, good observation and good access to the substance during the incineration process.

Modern shape, easy operation, reliable, space-saving and inexpensive.

Incineration heating bed: 400 mm long.

Equipment: Upper part and case in stainless steel.

Built-in 120-minute timer with acoustic signal after the time has elapsed and PERMANENT ON switch position.

Digital temperature instrument up to 999°C, which is supplied by a NiCr-Ni(K) thermocouple. is controlled.

Temperature specification on the digital device with constant actual temperature display.

The appliance has a safety circuit which de-energizes the heating as soon as the control flap is opened.

The device is delivered ready to be connected with a 1.5 m cable and a Schuko plug.
