// SEMI-AUTOMATIC SCREWER FOR BOTTLES OR CANS

Description:

Semi-automatic screwing machine for screwing bottles or jars.

Equipped with:

- Stainless steel frame with protective guards.
- Screwing station with vice to hold the product during screwing.
- Motorized screwing head with a mechanical release system.
- Product height to be screwed from 50 mm to 120 mm.
- Current tooling for a 40 mm diameter cap (size can be changed).
- Screwing is activated by pressing two buttons simultaneously.

The frame rests on four feet, adjustable in height by +/- 100 mm.
