FILLER FOR BOTTLES

Description:

Semi-automatic stainless steel vacuum filler with constant level for liquid products.
Height can be reduced to 2.00 m.

Equipped with:

Filling station with two 6 mm diameter stainless steel nozzles.

2 height-adjustable bottle support plates.

Automatic "PKB TP-VTP" overflow station with return to a Venturi jar.

Mounted on a stainless steel table with casters.

Capacity:

5 ml to 5000 ml (plan to replace the nozzles depending on the filling volume)

Maximum hourly production:

Approximately 600 to 1200 bottles depending on the type of product and the volume to be filled.
